### FEW UTILITIES FILE THEIR TAX SCHEDULES

NASHVILLE. Tenn. March 30. (Spl.)—Only about one-tenth of the railroads and public utility corporations in Tennessee have filed their tax schedules for the 1020 assessment with the state railroad and public utilities commission which the law requires shall be done by April 1. After that date penalty at the raic of \$100 a day is assessable against delinquents.

The commission made its regular biennial assessment in 1919 but was evedered by the last legislature to make another assessment this year on a 100 per cent basis to conform with the new assessment plan. Heretofore the public service corporations have been assessed at about 70 per cent of their value.

### YAZOO LEGION VOTES DOWN CASH BONUS

YAZOO CITY, Miss. March 30, (Spl.)
Narrowing the question of an army bonus down to the plan of colonization, the plan of a cash loan for a farm or a home, the plan of money for education, or the straight cash bonus plan, all of which are featured in the one bill favored by the American Legion, the Roy Lammons post of the legion in Yazoo City tonight voted in favor of the plan which has been suggested by the national executive committee.

The local post also went on pecord as disapproving compulsory military training.

### ONE KILLED IN FEUD AT COFFEEVILLE, MISS.

COFFEEVILLE, Miss. March 30, (Spl.)—Lee Tierce was shot and killed Sunday afternoon in front of Coffeeville bank by R. A. Melton, his brother-in-law. The trouble resulted, it is said, from a family feud of eight or nine years' standing.

Tierce got off of the poon train and began looking for Melton. They met and Melton fired the fatal shot.

The Meltons and Tierces five about six miles northeast of Coffeeville, near Mount Airy.

Melton was arrested immediately after the shooting by Deputy Sheriff Chapman and the town marshal.

## SATURDAY, APRIL LAST DAY PAY POLL TAX Without Garnishment,

Extra Cost and Loss of Time EVERY man in Sheiby County, under 50 years of age, must pay a post tax and is liable for garnishment if he does not. Unless your last Poll Tax Receipt bears the printed figures, "1919," you are liable.

Never mind your age-as measured by years. How do you feel? That's the thing that counts!

See this sprightly old gentlemen coming toward you down the street. His birth record would show you that he is past seventy. But judging from the easy grace with which he swings along, his errect carriage, his ruddy complexion, the keen glance of his eye, his whole appearance the very picture of health, you would say that he is not a day past fifty. He

is young in spite of his three score years and ten.

More frequently you see the opposite of his type. Men scarcely in their thirties—haggard, littless, weak, nervous—men who take no interest in life, just dragging out a weary existence, all in, tired and worn out. Though young in years, they are, nevertheless, old men. Their vital forces are on the wane. They've lost their "punch" and "pep." They feel old—and they look it!

Stay young by keeping your body fit. Keep storage hours!

# Stain Your Teeth

### And See the Film Which Wrecks Them

All Statements Approved by High Dental Authorities

Stain your teeth, as your dentist does, with an iodine solution. You will see dark patches, probably. And those are film. There is more film which you don't see.

Film is that viscous coat which you feel with your tongue. It clings to teeth, enters crevices and stays. The tooth brush does not end it. The ordinary tooth paste does not dissolve it. So much of it remains and may do a ceaseless damage.

There lies the cause of most tooth troubles. That is why so many brushed teeth discolor and decay. Tooth troubles are constantly increasing, and the reason lies in film.

### Their Greatest Enemy

Film is what discolors - not the teeth It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They,

with tartar, are the chief cause of pyorrhea. Thus night and day, while you feel that teeth are kept clean, that film may be doing ceaseless, fearful dantage.

These facts have long been knows. Dental science has for years sought a way to fight film. But periodic cleaning in the dentist's chair seemed the only real remover.

Now science has discovered an efficient film combatant - one for daily use. Able authorities have proved it by convincing tests. Leading dentists all over America are now urging its adoption.

Now the method is embodied in a dentifrice called Pepsodent-a modern, scientific tooth paste. Its use has spread until millions of teeth show its benefits. And a 10-Day Tube, for home test, is being sent to anyone who asks.

### We Apply a Digestant

Pepsodent is based on pepsin, the di-gestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

Pepsin long seemed impossible. It must be activated, and the usual agent is an acid harmful to the teeth. But science has found, after years of research, a harmless activating method. And now this efficient film combatant can be every day applied.

### Quick, Visible Results

The results of Pepsodent are quick and apparent. You can see them in the mirror, you can feel them with your tongue,

Millions have already made this test Now you owe it to yourself and yours. Compare the new way with the old ways. Judge between them by the visible results. Then say which method your home should employ.

This ten-day test is a pleasant lesson which one never can forget.

## Look in Ten Days Note the Luster

We urge you to make this ten-day test. Millions have done it already.

On every hand you see today the glistening teeth which Pepsodent can bring. Make your own teeth like them, then decide if you always want them.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film disappears.
